

Construction Project Manager Agribusiness Building Division

Greystone Construction, a well-established General Contractor and Specialty Products Contractor based in Shakopee, MN, and Bismarck, ND is seeking a **Project Manager** for our **Agribusiness Division**. This position will be responsible for procuring projects through the creation of a competitive and profitable estimate for each project bid. The Project Manager will be responsible for planning, directing, coordinating and budgeting activities for our Agribusiness Building Division including dry fertilizer storage and blending facilities, grain storage facilities, and bulk chemical/liquid fertilizer/seed warehousing. Other responsibilities include managing the submittals, costs and schedule to ensure that each and every project undertaken is completed on-time and under the budgeted cost estimate while meeting management and customer objectives for safety, quality and flexibility.

Qualified candidates will have:

- BS degree in Engineering or Construction Management from an accredited college or university
- Seven (7) years project management experience with in-depth knowledge of the Agribusiness industry
- Preferably has experience with a design/build general contractor who self-performs concrete, masonry, carpentry and/or pre-engineered building erection construction
- Ability to manage multiple projects through various delivery methods including design/build (typical project size \$500,000 to \$10,000,000)
- Results-orientated with proven ability to organize, plan and prioritize work to meet deadlines
- Strong ability to coach, mentor and direct others; demonstrated skills in managing people and projects
- Able to apply sound judgment and problem solving skills to complex projects and business challenges
- Solid reputation for building excellent relationships with internal and external customers
- Preferably has existing network of established relationships with prospective clients in the Agribusiness industry
- Excellent verbal, written, and presentation skills; communicates effectively with management, employees, customers, and vendors
- High level of motivation, integrity, and commitment to team and customers
- Strong work ethic, decisive, ambitious, with an unwavering commitment to quality and professional work

Greystone provides a wide range of construction services and specialty products and has worked in 24 states to date. The company is committed to safety, training, employee benefits, and community relations. To fulfill our customer needs, we recruit the best talent in the market and invest in their professional growth through training and career development opportunities. Our company culture fosters and recognizes excellence in continuous improvement and profitable business growth. We offer challenging work, competitive salary and benefits, and growth opportunities for our employees.
